-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8 and 11-13, drawn to a portable vise and saw combination including a portable vise assembly having at least one engaging surface that is oriented orthogonally to other two engaging surfaces, and a plurality of clamps and one clamp cooperatively positioned over each set of engaging surfaces, classified in class 83, subclass 452.
 - II. Claims 14-22, drawn to a portable saw base assembly including an elongated base member having a first end and a second end a top face and a bottom face, a mounting member secured to the bottom face of the base plate and secured in a vertically oriented vice so that the base plate is both cantilevered from the vice and oriented generally horizontally, and a workpiece to be cut is oriented generally parallel to the front edge, classified in class 83, subclass 490.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable.

The invention of Group II which includes a mounting member secured to the bottom face of the base plate and secured in a vertically oriented vice so that the base plate is both cantilevered from the vice and oriented generally horizontally, and a workpiece to be cut is oriented generally parallel to the front edge has a separate utility such as it could

Art Unit: 3724

be used without the specific features of the portable vise and saw combination as set forth in Group I.

Conversely, the invention of Group I which includes a portable vise and saw combination including a portable vise assembly having at least one engaging surface that is oriented orthogonally to other two engaging surfaces, and a plurality of clamps and one clamp cooperatively positioned over each set of engaging surfaces has a separate utility such as it could be used without the specific features of the portable saw base assembly as set forth in Group I. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their divergent subject matter, restriction for examination purpose as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor or at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR. 1.143).
